

Tay Canal Tour (ONEC) - May 25, 2024

Don't miss this early season row!

The Tay Canal is a historic route, built in 1831 as part of the Rideau Canal system. We will follow the canal rowing through a rural landscape, passing period houses, farms, and marshland, as well as sections of the Pike River, from which the Tay Canal was built.

This is a full day tour of approximately 22 km. with a lunch stop at Beveridges Lockstation, a Lockstation that features 2 locks separated by a short canal. After the row, join us for dinner (not included in the fee) at the Maximilian Restaurant in the heritage town of Perth

Registration deadline May 13

- Date:** May 25, 2024
- Starting point:** Meet in Perth at Last Duel Park at **8:30 AM** to rig boats
